

Foresight News March 2026

Dear Parents

The theme this month is "Our Town". We will learn about community helpers: health professionals, police, and fire fighters, mail carriers, librarians, and shopkeepers. We will discuss the jobs our parents do and invite them to share their special skills with us in Social Studies. We will also explore the various methods of transportation; land, water, and air. We will look at the history and technology of transportation. Safety will also be part of our unit; stranger awareness, wearing seat belts and bike helmets, participating in fire safety, and obeying traffic signs. We're looking forward to an exciting month of learning!

Special Events

Spring Break:

March 12th & 13th (Thurs. and Fri.)

Foresight will be closed. Have a safe and happy Spring break weekend! Please let us know if your child will be absent any other day that week, so we can staff appropriately.

Week of the Young Child!

April 11th – 17th

Help us celebrate the Week of the Young Child!! The WOYC is a celebration sponsored by the National Association for the Education of Young Children (NAEYC) that focuses on the needs of young children, their families, and importance of quality early childhood programs. We will be having special activities to celebrate our amazing young children. Details TBD.

Parent-Teacher conferences:

Week of April 21st. Specific Days and times will be shared as soon as we confirm substitute coverage.

Other News

Did you return your INTENT form??

We will have open enrollment for new students March 16th and we have a long waitlist! If you have not handed in your intent form by then we cannot guarantee your child a spot for continuing at Foresight. Our summer session covers June & July. Foresight Fall session begins on Monday, August 3rd, 2026.

Keeping our students Safe:

- Please check your child's backpack to be sure there is not anything in there that should not be in reach of any child. This includes ALL medicines, ChapStick, lotions, hand sanitizers, toys, plastic grocery bags, small choke risk objects, etc.
 - Please clean your child's lunch box and winter coat to avoid spreading germs, and don't forget car seats! Our students' safety is #1.
-

Contact Information:

Please be sure we have a current phone number to reach you in case of emergency.

Independence is GOOD:

As a friendly reminder, here are our **developmentally appropriate** expectations of students when coming into school:

- Please have your child *walk* on their own into the building carrying their own belongings.
- Sign your child "IN" and "OUT" with a FULL signature. Kiosk is located at front area entrance.
- Please allow your child to put their own personal items into their cubby (with guidance if needed) so they know where it is and what it looks like. They can do that while you are signing in & out.
- Instruct and assist your child to wash their hands in the restroom (20 seconds) or middle classroom at drop-off time.

Our Staff:

We also have hired Sophia Angerbaum, Emilee Alvavado, and Sarah Myers to substitute teach. We have them shadow teachers, work with staff to learn daily routines, and review FLC policies and procedures. Please introduce yourself to any new faces! We are still looking to hire a late-day assistant, unfortunately the people I hired did not work out (it happens), but we will get the position filled as soon as possible. If you have any questions speak with Beth.

Healthy Lunch Time:

Please remember that lunches must follow our Quality First guidelines for healthy eating habits. Please save cookies, fruit snacks, Slim- Jims and high fat snacks for home. **Protein, Fruits AND veggies should be offered every day.**

*****Also, be sure to check-in with your child about food likes/dislikes, their taste*

sometimes changes and it is difficult to encourage them to eat when they "don't like" something.

Parents needed to share about careers/jobs:

We would love parents to share their professions this month! As a part of our community helper's unit, having actual professionals come in is a key part of making our learning as authentic as possible. Please talk to Miss Kori if you would like to come in!

Eco-Tip: Reusable water bottles

Here's a secret a lot of people don't seem to know: Tap water is drinkable. Keeping a nice, BPA-free water bottle in your bag is an insanely simple way to save the cost of a three-dollar bottle of water—the same cost of 700 gallons of water out of the tap at home. Bottled water is incredibly wasteful on so many levels: An estimated 80 percent of them don't get recycled and, because of the plastic production process, it takes three times the amount of water in a water bottle to produce just one!

Kindest Regard,
Beth, Kori, Jena, Isabelle, Sam S., Sam G.,
Michaela K., Adrienne, and Mikaela B.
